Event Introduction & Purpose

Dear Teams,

121 events are useful for clubs transitioning athletes from in-house club sparring level to domestic Open Championship level. They are also useful for already-experienced athletes to build on their experience or to adapt to new age or class categories.

How it Works

- Teams will submit their entry information using www.ma-regonline.com for their competitors which will be drawn together to a single list for the Match Manager.
- Competitors will be paired up based on their Age, Weight and Skill Groups based on Open Competitions of A, B & C Class wherever possible.

Notice to Teams

- All competitors will be awarded a medal/trophy to commemorate their participation.
- See further on in this pack for the type of scoring system that will be used.
- If you would prefer a manually scored match (non-PSS) please indicate in comments and we will try to accommodate where possible.
- Teams must ensure they provide enough coaches to support their competitors.

Finally, I hope you will continue to support our events which have been running for 10 years now.

Yours in Taekwondo,

Master Rick Simpson 6 Dan
